## Independent Auditors' Report

To the Board of Directors  
Gunn & Company Incorporated  
San Antonio, Texas

We have audited the accompanying statement of financial condition of Gunn & Company Incorporated as of December 31, 2008, and the related statements of income, stockholder's equity, cash flows and changes in liabilities subordinated to claims of general creditors for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Gunn & Company Incorporated as of December 31, 2008, and the results of its operations and its cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information contained on pages 9 through 12 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

# **GUNN & COMPANY INCORPORATED**

## **NOTES TO FINANCIAL STATEMENTS**

### **1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Company is primarily in the investment banking and securities trading business.

**Cash equivalents** - Cash equivalents consist primarily of treasury bills and notes, certificates of deposit, repurchase agreements and commercial paper with original maturities of 90 days or less. Certificates of Deposit and other securities with original maturities over 90 days are classified as short-term investments. Cash equivalents and short-term investments are stated at cost, which approximates market value.

**Estimates** - The Company uses estimates and assumptions in preparing financial statements in accordance with U.S. generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Actual results could vary from the estimates that were used.

**Advertising** - Advertising costs, which are principally included in other expenses, are expensed as incurred. Advertising expense was \$0 for the year ended December 31, 2008.

### **2 RELATED PARTY TRANSACTIONS**

The parent company of Gunn & Company Incorporated is a subsidiary of another corporation to which administrative expenses are paid. Administrative expenses of \$132,850 were expensed to the "grandparent" corporation during 2008. Also, \$10,750 was owed to the corporation related to the administrative expenses at December 31, 2008.

### **3 NET CAPITAL REQUIREMENT**

The Company is required to comply with a Securities and Exchange Commission regulation which provides that the Company maintain a ratio of aggregate indebtedness to net capital, as defined, not exceeding 15 to 1. At December 31, 2008, the Company's net capital of \$10,367 exceeded required net capital of \$5,000 by \$5,367 and its capital ratio was in compliance.

### **4 RESTRICTED CASH**

Gunn and Company Incorporated is required to maintain a minimum cash balance of \$10,000 (actual of \$10,003) with Southwest Securities, Inc. for the processing of specified security transactions.

### **5 INCOME TAXES**

The company has incurred losses in prior years. The Company files a consolidated tax return and there is no tax expected to be paid for 2008. Due to previous net operating losses of the consolidated group, it is uncertain if there will be any income tax benefit related to the prior year losses, and none has been recorded.

RECONCILIATION PURSUANT TO RULE 17a-5(d) (4)

December 31, 2008

No material differences exist between the auditors' computation of net capital and the broker-dealer's corresponding computation of net capital included in the unaudited FOCUS Part II filing.

**Independent Auditors' Report on Internal Control  
Structure Required by SEC Rule 17a-5**

To the Board of Directors  
Gunn & Company Incorporated  
San Antonio, Texas

In planning and performing our audit of the financial statements of Gunn & Company Incorporated for the year ended December 31, 2008, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by Gunn & Company Incorporated that we considered relevant to the objectives stated in Rule 17a-5(g), [1] in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c-3(e); [2] in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13; [3] in complying with the requirements for prompt payment for securities under section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and [4] in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2008 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
